## PROFILE

Product Designer (UI/UX Designer) specialized in creating captivating designs that leave a lasting impact. With a keen eye for detail and a strong grasp of design principles, I craft visually compelling and user-centered solutions. I'm committed to delivering exceptional results that align seamlessly with client needs and brand identity.

## WORK EXPERIENCE

06/2022 – present  
Dhaka, Bangladesh

### Product Designer (UX UI) Tech Analytica Limited

- Designed user interfaces and experiences for enterprise products, which enhanced usability and engagement for users.
- Developed a component-based Design System, ensuring consistency and efficiency in the design process across various projects.
- Conducted usability testing, heuristic evaluations, and expert reviews, helping to guarantee user-friendliness and alignment with the needs of our target audience.
- Contributed to the company's goals by designing services like E-learning Platforms, E-commerce Platforms, Multiplatform Video Calling Apps, and SDK Services for Calling, ultimately broadening our service offerings.
- Excelled in videography and video editing, which enriched our marketing efforts and improved brand storytelling.
- Created social media post designs and developed brand identity, offering comprehensive design expertise that strengthened our overall visual presence.

07/2023 – 01/2025  
Dhaka, Bangladesh

### Designer (Part time) Gaznoby

- Designed visually appealing magazine layouts with focus on readability and aesthetics.
- Created engaging cover designs that captured attention and reflected each issue's theme.
- Developed infographics, charts, and illustrations to enhance content and storytelling.
- Edited photos through cropping, retouching, and color correction for high-quality output.
- Applied thoughtful typography choices to maintain visual consistency and readability.
- Collaborated with editorial, writing, and photography teams to align visuals with content.
- Actively participated in editorial meetings and integrated feedback into design revisions.
- Ensured all design elements supported the magazine's overall tone and message.

## EDUCATION

01/2022 – present  
Dhaka, Bangladesh

### Mechanical Engineering | Bachelor of Science City University

- Completed hands-on projects in robotics, thermodynamics, and fluid dynamics, which enhanced my practical engineering skills.
- Collaborated on a highly praised capstone prototype, showcasing teamwork and innovation.
- Gained valuable research experience and simulation skills, helping to improve design analysis accuracy.

07/2016 – 12/2020  
Bogura, Bangladesh

### Mechanical Engineering | Diploma In Mechanical Engineering Computer science and business studies institute, Bogura

Completed projects in thermodynamics and fluid mechanics, built a mechanical prototype, analyzed systems using simulation software, and presented at conferences—enhancing technical skills, teamwork, and the ability to communicate complex ideas clearly.

01/2011 – 02/2016  
Naogaon, Bangladesh

### Science | SSC Palsha Krishnapur High School

Successfully completed Secondary School Certificate (SSC) with a strong academic foundation in science, mathematics, and language studies. Developed discipline, problem-solving skills, and a solid base for higher education in technical and creative fields
